The solutions to the water crisis

1. Read the 'The Solution' section on the 'Clean Water and Sanitation' page on the SuperKind website.
2. Fill in the gaps to complete each word.
3. Connect the headings (middle column) to the specific solutions (left column) and their definitions (right column). The first one has been completed for you as an example. Note that each heading from the middle column connects to just ONE box in the left column, and one box in the right column. The headings in the left column connect to multiple headings in the middle column.

<p>Bring water to people and communities that need it</p>	<p>Reverse O _ _ _ sis</p>	<p>Using a barrier to catch p _ _ _ tic in the ocean</p>
<p>Make the water c _ _ _ n and s _ fe</p>	<p>R _ _ _ water Harvesting</p>	<p>Bringing water up from underground</p>
<p>U _ _ less water</p>	<p>More crop per d _ _ p</p>	<p>Collecting r _ _ nwater</p>
	<p>Janicki Omniproc _ _ or</p>	<p>Using i _ _ igation methods that are more efficient</p>
	<p>Wells</p>	<p>Getting people to use l _ _ s water</p>
	<p>Breeding new crops that are less th _ _ _ ty</p>	<p>Turning sewage into electricity and cl _ _ n water</p>
	<p>The Ocean Clean Up B _ rr _ _ r</p>	<p>Removing s _ _ t from water</p>
	<p>Reducing personal water c _ _ _ umption</p>	<p>Genetic _ _ ly modifying crops that need l _ _ s water</p>
